

CENTER FOR INTEGRATION SCIENCE in Global Health Equity

The Center for Integration Science in Global Health Equity is a joint initiative of

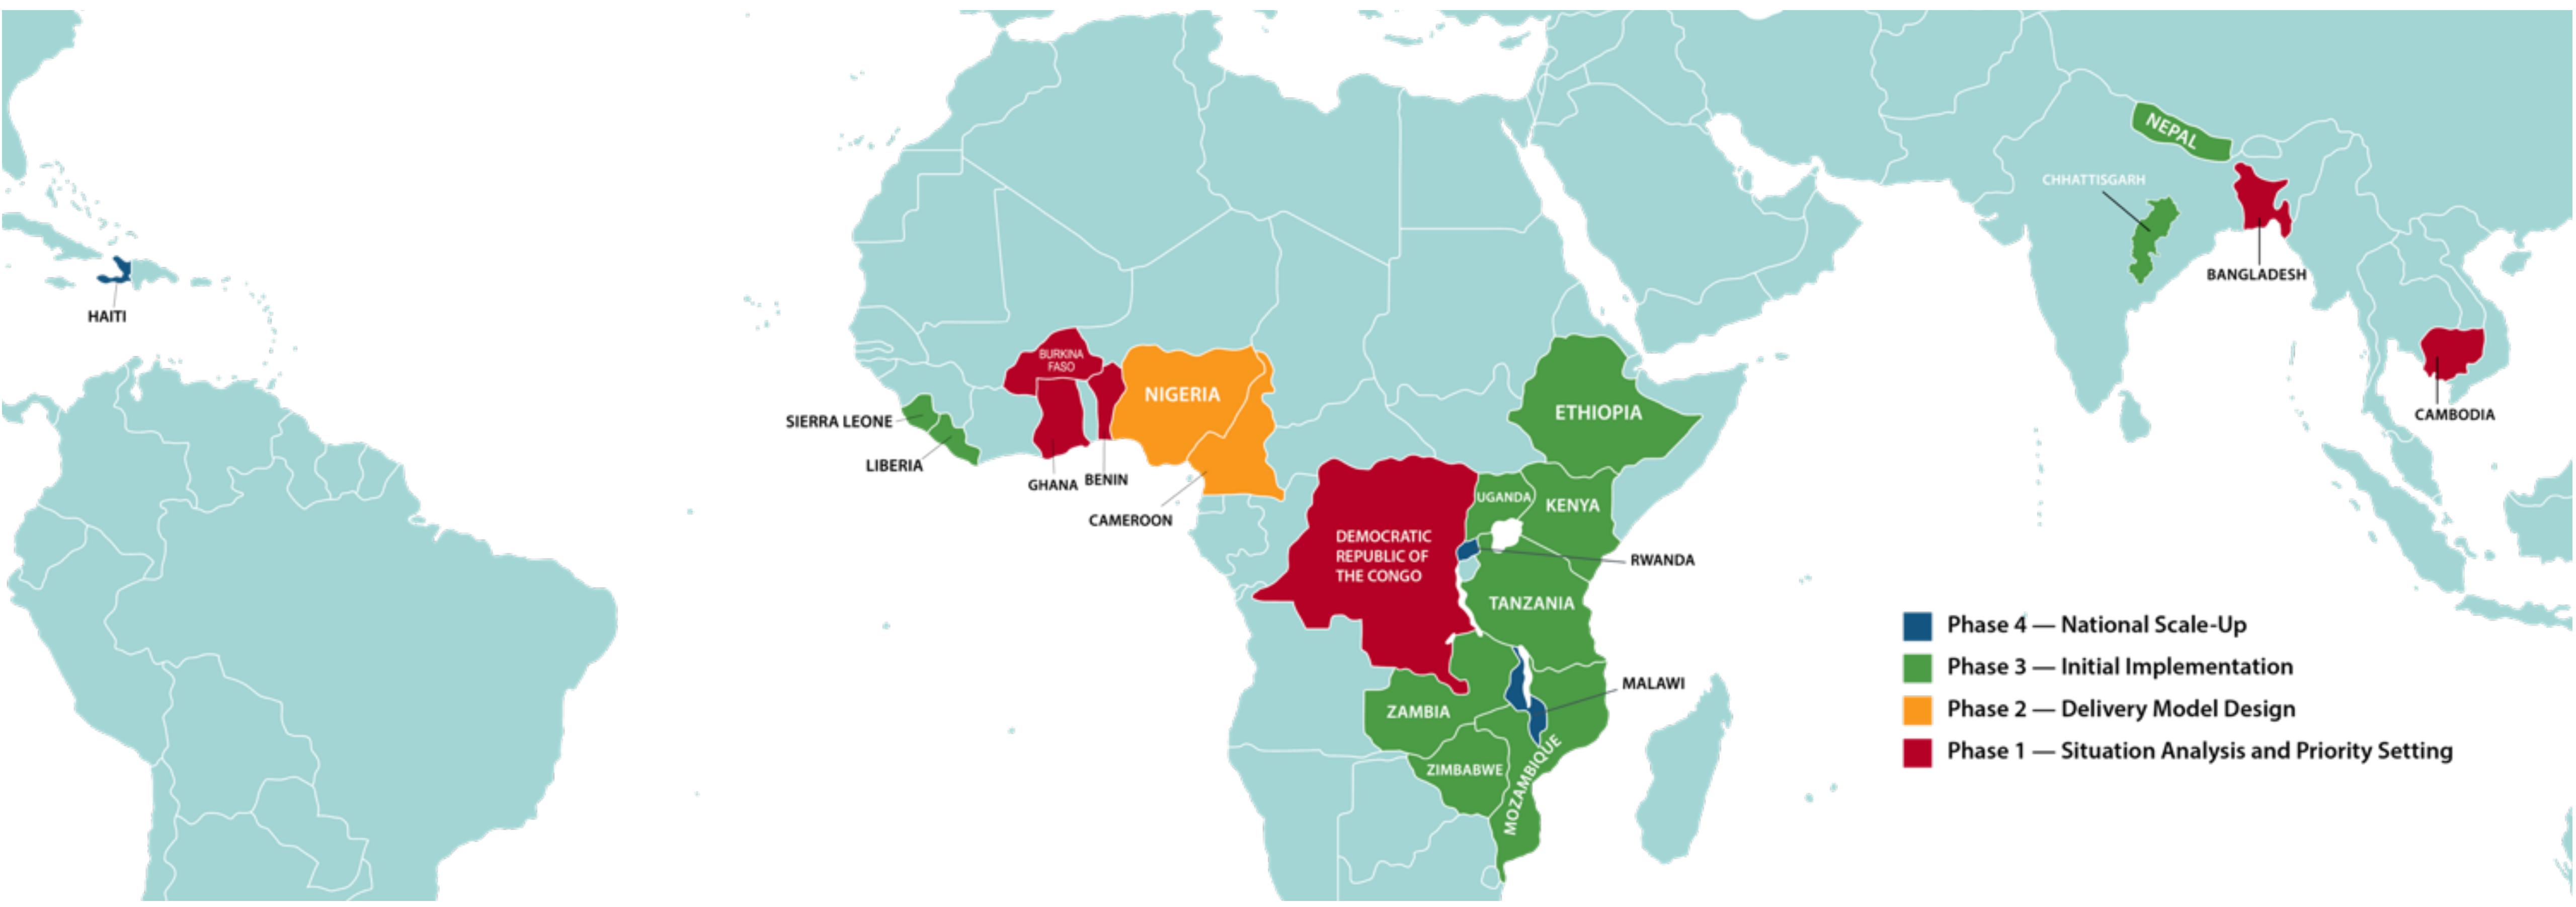

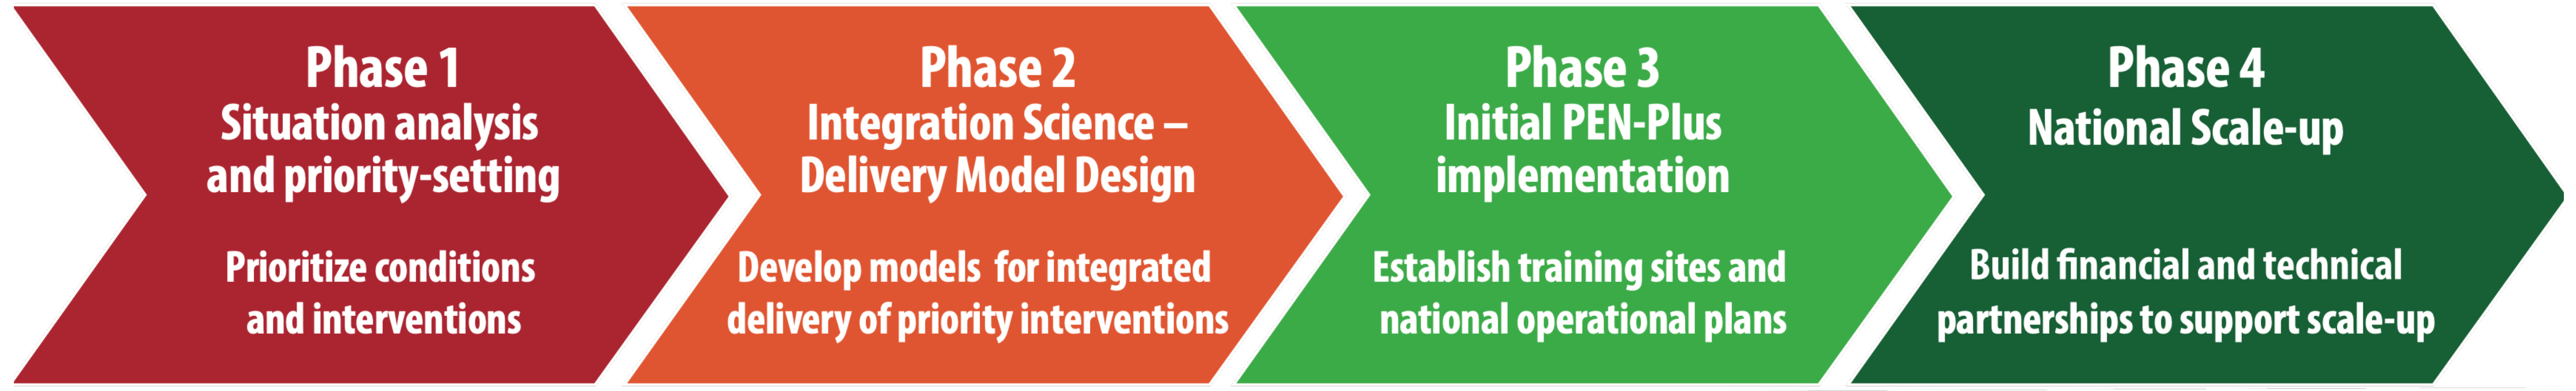

Program in Global NCDs
and Social Change
HARVARD MEDICAL SCHOOL

Mission is to accelerate the just redistribution of resources in the interest of global health equity by identifying integrated units of operational effectiveness in health care delivery and scaling their implementation through collective action.

The NCDI Poverty Network's four-phase theory of change ...

Fundamental **Theorem** of Integration Science (in GHE)

Integrated Delivery **Models** + Integrated Social **Movements**

= **Progress** on Global Health Equity (**M+M=P**)

PEN-Plus
Partnership

Network Membership by PEN-Plus Condition

Type 1 Diabetes Community

- Beyond Type 1
- Diabetes Institute on Flourishing*
- East Africa Diabetes Study Group*
- Helmsley Charitable Trust
